²Many (but not all) employers, government benefits providers, and other originators send direct deposits early with an effective date of 1-2 days later. Beginning with your second direct deposit of at least \$5 from the same source, Central Bank of Kansas City (CBKC) will post the funds to your Payactiv Visa Card when we receive it, rather than on the effective date. This may result in your having access to the funds sooner. The date CBKC receives your direct deposit and the effective date are controlled by the originator.
