

Real-time control. Real-world results.

Hundreds of senior care communities are seeing success with SAMI, the only workforce technology that gives you the flexibility to meet demand while maintaining complete control over your workforce operations.

Customers agree — SAMI is a game-changer

The majority of SAMI customers say:

“ SAMI gives my employees more support”

“ SAMI creates significant operational efficiencies”

Engage and retain your workforce

With SAMI, nearly a quarter of customers have **reduced employee turnover**, and 29% say it alleviates stress and burnout.

37% of customers say their employees **pick up shifts earlier** with SAMI.

“ It’s the best system we have used! Ease of scheduling, managing employee retention and managing agency usage have been an absolute breeze! Not to mention the drastic decrease in work hours for our staffing coordinators.”

Manage costs with precision

54% of senior care leaders say SAMI allows them to **control their workforce budget**.

“ The seamless integration of independent professionals into our schedules improves efficiency in administrative tasks, including reporting & forecasting shift needs.”

Drive care quality

SAMI has helped 80% of users **fill unexpected call-offs**.

“ It’s great for filling last-minute call-offs and holes in the schedule when we don’t have enough staff. SAMI has allowed us to ensure we have coverage for patient care.”

See the full picture

Nearly half of SAMI customers have **saved administrative time**.

“ This is the BEST scheduling platform I have ever used. The ease of training employees to use it, the ease of operating it and having the assurance that shifts are filled and that budget is managed is an absolute relief!”

These improvements are based on SAMI customer results. Your results may vary.
