The Future Of Workforce Scheduling Is Here

Power up your schedules. OnShift Schedule X transforms scheduling to meet changing workforce demands in long-term care and senior living. Effortlessly fill open shifts, control costs, and ensure continuity of care to accelerate growth.

Streamline & Simplify Scheduling

Create and balance schedules instantly. Streamlined design eliminates complexities to easily manage changing workforce needs.

Fill Shifts Faster For Consistent Care

Quickly identify and fill open shifts to ensure proper coverage based on your care budgets and requirements.

Boost Satisfaction & Increase Engagement

Give employees the scheduling experience they deserve – one that is flexible, collaborative and fully mobile.

Reduce Costs & Ensure Compliance

Proactive alerts drive workforce compliance and prevent excess costs from overtime, overstaffing and more.

Embrace The Total Workforce

Accelerate growth by automatically accessing the ShiftKey marketplace to fill selected shifts with best-fit independent professionals.

Drive Strategic Workforce Decisions With Actionable Insights

Gain total visibility and proactive insights to optimize workforce management across communities.

*These improvements are based on initial OnShift Schedule X customer results.

Next-Level Scheduling

Built in collaboration with hundreds of long-term care and senior living communities, OnShift Schedule X delivers the simplicity, flexibility and insights needed to drive success.

All-In-One Mobile Experience

Quick and easy access to the information that matters to your employees including their earned wages, reward points and schedules, all from one dashboard.

Promote Work-Life Balance

Make it easy for staff to view their schedule, request open shifts and stay-up-to-date on what's happening at their community.

Motivate & Reward

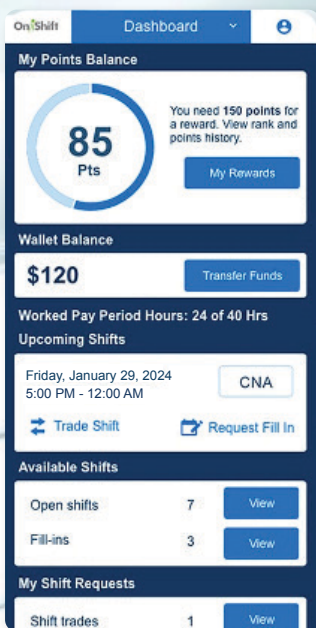

Show staff their contributions matter with real-time rewards tracking and in-app messages from managers.

Ease Employee Financial Stress

Help employees when they need it most with access to earned wages between paychecks.

“OnShift Schedule streamlines daily schedule management, alerting us to gaps, potential overstaffing and excess overtime all from one easy-to-navigate system.”
