

Efficiently hire best-fit candidates with talent **ACQUISITION** software from OnShift

OnShift Hire helps streamline the hiring process with a robust applicant tracking system that enables long-term care and senior living providers to source, attract and engage jobseekers. Eliminate the administrative burden of paper-based hiring processes and seamlessly manage the applicant lifecycle from a single, easy-to-use system.

- Increase efficiencies by automating processes throughout the applicant lifecycle
- Improve quality of hires by building a database of qualified candidates
- Lower recruiting and hiring costs by reducing time to hire

Online Talent Management to Improve Efficiencies

Manage the talent acquisition process online, from contact to hire, in one central location for faster, more efficient hiring.

- Store, organize and quickly search all job and applicant information
- Automate communication and hiring processes with configurable workflows
- Simplify coordination between hiring managers and candidates with email and calendar integration

Recruit & Source Candidates to Attract Top Talent

Build a qualified candidate pool to gain a competitive edge by reducing the time it takes to hire top talent.

- Post job openings to all major job boards with a click of the mouse
- Attract talent with branded career portals and integrated social tools
- Source candidates with access to over 1,000 resume sites

Hiring Visibility & Documentation for Better Decisions

Get real-time visibility into key hiring metrics and document applicant information to safeguard your organization and make better hiring decisions.

- Report on time to hire, candidate activity, job posting effectiveness and more
- Document activities to demonstrate adherence to Equal Employment Opportunity policies
