

AUTOMATED TEXT-BASED RECRUITING SOFTWARE FOR SENIOR CARE

Connect, Interview & Hire Candidates in Record Time

OnShift® Text2Hire™ empowers hiring managers to quickly connect with applicants, schedule interviews and hire candidates using their preferred communication method: text messaging.

2X the number
of hires

50% faster
time-to-hire

60% less interview
no-shows

Hire More Candidates in Less Time

Increase the number of hires by quickly connecting with candidates via text messaging.

Automate Interview Scheduling

Instantly schedule qualified applicants with artificial intelligence and get end-to-end interview management with the ability to store, search and monitor candidate progress.

Access Hiring Metrics that Matter

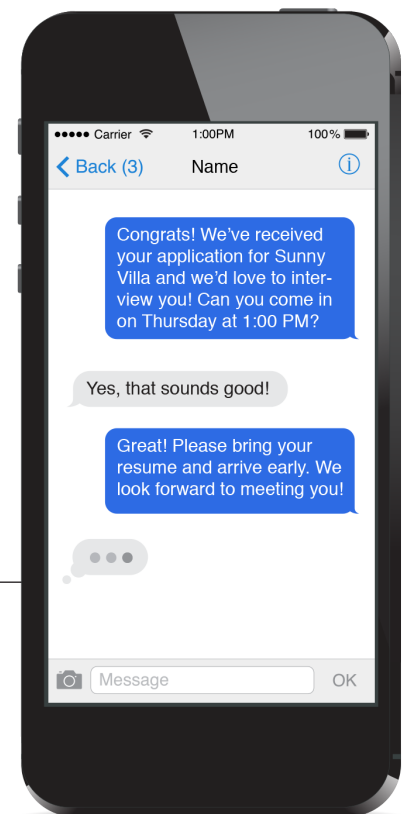

Executive dashboards and reports deliver real-time hiring metrics: candidate contact rate, interviews scheduled and job offers made.

Streamline Candidate Communications

Avoid no-shows with day-before and day-of reminders, and quickly reschedule candidates as needed.

Create a Strong First Impression

Differentiate your organization with a candidate experience like no other. Fast and easy one-to-one personalization quickly and conveniently engages candidates.

“OnShift Text2Hire has improved our metrics overall; we’ve doubled the amount of candidates hired while cutting our time-to-hire in half. And new employees have loved the quick interaction.”

-Shelly Szarek-Skodny, CEO, Century Oak Care Center
